

# Forever Twist Lariat

This design show the classic way Venetians make Jewelry. It makes for a neatly finished piece.

**SKILL LEVEL:** Beginner

### Components

1	F-PW-INFINITY-AS	Infinity Link
20 "	F-PF-CHROL22-SP	Rolo Chain
3	F-SS-JRO28-5	Jump Rings
1	F-SS-CL-LOBSWR-105	Lobster Clasp
2	SPKL-FOG-20-T-ZEB16	Sparkle Twist
2	F-PW-SPC-5COIL-AS	Coil Beads
1	F-SS-HP212-24	SF Headpin 2In

### Alternatives:

- Use any of our authentic Murano Glass Beads as your pendant.
- Make in a Gold Tone.

### Instructions:

- Step 1.** For an ~20 Inch Necklace. Begin by cutting your chain into two pieces, the shorted side, with the infinity loop, 9 Inches. The longer side 11 inches will be the side where you wire wrap your pendant bead.
- Step 2.** With one of the jump rings, securely attach the short chain to the infinity loop. On the opposite end, attach the clasp with a second jump ring. The Swivel Clasp allows for the chain to stay straight.
- Step 3** Pendant: Insert the headpin through first the 5mm coil bead, your Venetian Bead and the Coil Bead again. Wire Wrap this directly through one end of the other piece of chain, alleviating the need for a jump ring..
- Step 4.** Slide the loose end of chain through the Infinity Loop with the pendant bead dangling as shown. Add the final jump ring to the loose end as a ring for the Clasp. .

### Tools:

Side Cutter, Wire Wrapping Pliers

### Tips:

- The necklace can be lengthened in the same proportions as the initial directions. Or just add 1 inch to each side and you will have a 22 Inch Necklace.
- If you want to keep the length of the lariat fixed, take a jump ring and attach it at the place you want it to stay, through the chain and around the infinity loop.
- Make matching Earrings by duplicating the pendant and adding to an earwire.
