SCH-CURV-TUBE-40X8-16	2	Opaque Black Curved Tube 40x8mm Murano Glass
BA-JW15T-0	1	Beadalon 19 Strand .018 Bright 30'

Instructions:

Step 1. Begin by cutting your wire. I prefer to use it off the end of my spool to save those couple of inches.

VenetianBeadShop

Reticello Black Curved Tubes Bracelet

Step 2. If you cut the wire you can begin in the center and string from each side. Since I string directly onto the spool of wire, I begin at one end and string. (I have already laid it out on my beading board for sizing.)

Step 3. The layout is symmetrical

Between each bead string a Bead Cap, (including before and after the Crystal Rondel)

Between the curved tubes string a Crystal Rondel,

NOTE: The ending 6mm bead does not have a Bead Cap

Step 4. To complete the bracelet string the crimp bead onto the wire, then the wire through the wire protector. At this point, add the clasp Then the wire back through the crimp. Carefully pull the wire taunt.

Step 5. On the other end, string the crimp bead onto the wire, then the wire through the wire protector and insert this through a link of the chain.

Step 6. If you have strung this on the spool, then cut the wire about 3-5 Inches longer than the bracelet. Gently tighten the bracelet before crimping the crimp tube and finally cut the extra wire.

Reticello Black Curved Tubes Bracelet

HINTS: For Longer:

Add additional 6mm beads, optional to use additional rondels between.

For Shorter:

Eliminate the ending 6mm beads.
