OVER THE TOP!

When we got a shipment of these colorful transparent mouthblown Murano Glass beads, we had to make some earrings. They are light, a little over the top and a simple version. There are 18 wirewraps for the small crystals but so worth the effort.

SKILL LEVEL: Wire Wrapping Skills

If your skills do not include wire wrapping, you can make a simple loop. However, at some point, you need to just learn how to make the wire wraps. It will open up so much for you.

Tools:

1 Side Cutter
1 Wire Wrapping Pliers

Step 1. Wire wrap the 3 colors of 4mm Swarovski Crystals, cut off excess and set aside. There will be a total of 18 wire wraps, 6 of 3 colors.

Step 2. Insert the headpin through the beadcap, the multi color blown bead, the beadcap.

Step 3. Wire wrap the assembly and tuck the open end of your wire wrap close to the center. Cut off excess.

Step 4. With the 4mm locking jump rings, open and insert one of the wire wrapped Swarovski Crystals from Step 1 above. Carefully insert the jump rings through the wire wrapped crystal and into the loop you created in Step 2 above.

Step 5. Open the loop in the Ear Wire and the assembly into the loop, close carefully so there is no gap to catch hair or let the assembly fall out.

Step 6. Repeat for the other earring

EASY VERSION

Since we know that not everyone wants to make all those wrap wraps and it's hard to put all those jump rings in that tiny space, Here's an easy version to the same earrings. There are two alternatives, one with red and one with green.

The parts list is shorter and there are fewer wire wraps.
