### Instructions:

**Step 1.** Cut a 7 inch length of the BA-180B-024 wire, or wire you have on hand. Assemble the earring beginning at the middle. Insert first the Rombo 4mm bead and then thread the wire through both the Silver and the Black.

When you have both at the top, add the 3mm Rombo beads and then thread both the ends of the wire through the Swarovski Crystal.

**Step 2.** With your round nose pliers make a wire wrapped loop. There will be two lengths of wire, just wire wrap as usual, it just adds to design..

**Step 3.** Open the loop in the ear wire, insert the assembled earring and close securely.

**Step 4.** Do the same for the other earring.
