

Fall Black and Topaz Stripe Earrings

Design by Amy Margaret Kapphan

Make these Fall Topaz Sash Earrings

You could use this design with any of our Sash Beads. We call them sash because a band of Silver Foil over the base of Black allows us to apply a sash of transparent Topaz.

The overall length is approximately 1 3/4 inches.

SKILL: Wire Wrapping

Tools:

Side Cutter, Round Nose Pliers & Flat Nose Pliers

Components

Part SKU	Quantity	Item Name
RN-12-SASH-BS5	2	Murano Glass Bead Black Round 12mm Topaz Silver Foil
SCH-RN-06-OP16	2	Opaque Black Murano Glass Round Bead, 6mm
F-GF-ORW-C25	2	Gold Filled Earwires w/2.5mm Ball, Per Piece
F-GF-HP0124	2	1 Inch Gold Filled Headpin, 24 Gauge
F-GF-EHP07522	2	3/4 Inch Gold Filled Headpins w/Eyehole, 22 ga, Per Piece

Instructions:

Step 1. Begin by making the 6mm dangle. Insert a headpin and make a loop. We prefer wire wrapped, but a simple look will also work..

Step 2. Take the eye pin and insert through the sash bead. Then with your round nose pliers make a wire wrapped loop on the other end.

Step 3. Open the eye pin and insert the wire wrapped 6mm bead.

Step 3. Open the loop in the earwire, insert the assembled earring and close securely.

Step 4. Do the same for the other earring.

These are a perfect match for our Fall Bracelet.
