

# Klimt Red Curve Tube Choker

Design by Amy Margaret Kapphan exclusively for VenetianBeadShop

This necklace features our Klimt inspired Venetian Glass curved tube with Exterior Gold Foil.

Length is up to you. We made an 16 Inch Choker. Just put equal lengths on each side of the curve.

**Tools:**

Side Cutter, & Chain Nose Pliers and Wire Wrapping Pliers

**Substitutions:**

You may use any chain you have and for the wire linking the curved tube, use any 20 gauge wire you have.

**Components:**

Part SKU	Quantity	Item Name
F-PF-CHCABFL74-NBR*	12 Inches	Premium Flat Oval Cable Chain, 7.4mm x 5.4mm, Natural Brass per Foot
F-BM-CLTGR13-NB	1	Premium Italian Brass Trigger Clasp, Natural Finish, 13mm
KLIMT-CURV-60-R-XGMUL	1	KLIMT Curved Tube 60mm Exterior Gold Foil Mosaic Red
WS-CW20G-SILGLD*	6 Inches	SoftFlex Premium Craft Wire, 20ga, 25 yds, Silver Plated Gold
F-BM-JRO28-5AB	1	5mm Open Jump Ring, 20ga, Antique Brass
	*	You can use Chain and 20 gauge wire you have on hand

**Instructions:**

**Step 1.** Cut the chain into 2 lengths of 6 inches each side. For an 18 Inch, you will need 2 lengths of 9 Inches.

**Step 2.** Add the Clasp using the jump ring, be sure to close it securely. If you move the ends slightly open and close a couple of times, you build strength in the jump ring.

**Step 3.** Cut a length of the 20 gauge wire about 6 inches and insert it through the curve tube. Using your Wire Wrapping Pliers, make a wire wrap, inserting the last link of the chain into the wire wrap before you close. Cut the loose end of the wire close to the wrap.

**Step 4.** On the other side of the curve tube, cut the wire to about 1 inch and make a wire wrap, inserting the other end of the chain into the loop. Cut the excess from the wire.
