SCH-ROND-11X7-T4	4	Murano Glass Bead, Rondel, 11x7mm Transparent Blue

### Instructions:

**Step 1.** Cut a piece of beading wire 12-15 inches. Follow the pattern above beginning with the Luna Diamond. Add the 5mm Bead Cap on either side, and alternate with the transparent Rondel, bead caps go on each side as well.

**Step 2.** Add one Twisted Crimp and string the beading wire through the Wire protector, adding one side of the toggle in the center. Take the wire back through the crimp. Push the crimp snugly up to the wire protector and crimp flat.

**Step 3.** Do the same on the other end of your wire with the opposite side of the toggle. Cut the excess wire.

**Step 4.** Add the crimp cover over the crimps on each side and gently close for a finished look.
