

## Ocean Treasures Earring-DI2

*My 7 year old daughter came up with the name of these beautiful earrings. The blue in the blown beads reminded her of the ocean and the gold sparkly swirls, silver lace, and golden crystals looked like treasure. I think she hit the nail on the head. Enjoy!*

It is a two step earring with wire loops joining the Drop (upper part) to the focal bead of the earring.

**Step one:** Prepare the drop for the earring. Begin with a sterling silver headpin and string a 3mm corrugated saucer bead followed by an 8mm bright silver filigree bead cap, blown bead, filigree bead cap, and another corrugated saucer bead. Finish the drop with a tiny wrapped loop.

**Step two:** Prepare the crystal that connects the blown bead drop to the ear wire. Start with a sterling silver headpin and string an 8mm bright silver filigree bead cap followed by an 8mm Swarovski faceted briolette and another filigree bead cap. Center the crystal and bead caps on the headpin since you will be creating a wrapped loop on both sides. Attach the crystal to the drop using a wrapped loop. Attach the other side of the crystal to the ear wire using another wrapped loop. Repeat for the second earring.

**Approximate size:** 2 ¼ inches

Tools and Components we used are below, but you can use the tools you already have.

**Skill Required:** Wire Wrapping

### Tools used:

Round nosed pliers (TS-PLR-31000)

Flush cutter (TS-PLR-48700)

Chain nose pliers (TS-PLR-30200)

### List of components:

Blown beads (BL-DIA-DS-20-AV6, qty 2)

Sterling silver corrugated saucer beads (F-SS-BCRST-SCR-32, qty 4)

Bright silver filigree bead caps (F-BM-BDCP8-BS, qty 8)

8mm Swarovski faceted briolette Golden Shadow (5040-8mm-GSHA, qty 2)

Sterling silver headpins (F-SS-HP212-24, qty 4)

Sterling silver ear wires (F-SS-ORW28-25, qty 2)
