Flat Nose Pliers Round Nose Pliers Side Cutters

Wire Wrapping: Need Help – See our Tutorial

Instructions:

Step 1. Make dangles with the pearls by taking your head pins and insert through the Pearls. Complete by wrapping the wire into a loop using the round nose pliers and cut off the excess using the side cutters. Its okay to close the wire wrap because you can open the jump rings to attach .

Step 2 Using one of your 10mm jump rings open and attach the pendants, repeat with the second one. Join the two jump rings together, Then with the last 10mm attach the 3rd pendant on the bottom. So you have 3 jump rings in a row.

Step 3. Take your 7mm jump rings and attach the pearl dangles in each of the bottom two loops, 2 on each side of the pendant.. In the top loop, attach the smaller pearl using the 7mm jump ring..

Step 4: With 1 of 10mm jump rings, open and attach to opposite end of the necklace (not the clasp). Then attach the 8mm jump rings. You may add as many as you wish to make the dangle longer or shorter.

Color Variations: You may use any of the Crystal Pearls and Pendants in the Swarovski Collection, and we often use our own Venetian Glass Beads to add more color.
