

Torcello Twisted Zanfirico Necklace

Torcello is a small island near Murano. In fact to get to Torcello, you must first go to Murano. It is remote and quiet with major Byzantine influences. While it once was home to more than 10,000 people, today there are only about 20 people who call it home.

The centerpiece, focal, of this necklace is our Twisted Zanfirico curve which reflects the Byzantine influences you find in Torcello with its exterior gold foil and drizzles of transparent aqua. The zanfirico is a type of cane, as you can see in the background which has spirals of color. Since this is a very ornate bead, we do not want to upstage it, so simple components complete this necklace.

Components

1	ZAN-CURV-60-XG6, Aqua w/Zanfirico Venetian Bead Twisted Curved 60mm
2	F-SS-BDCP-SCAL-9m, .925 Sterling Silver Scalloped Beadcap 9mm

Tools:

Side Cutter, Crimp Tool

Instructions:

Step 1. Cut 2 pieces of wire (22 inches long). The necklace will be 18 inches, but this gives you some room to work.

Step 2 Take both pieces of wire and string through the curved bead, centering it on the necklace.

Step 3. String on 1 of the Rondelles, followed by the 14mm solid bead and a second rondel. .

Torcello Twisted Zanfirico Necklace

Step 4- Split the wires and add 1 of the 2mm Silver beads to each of the wires, followed by 10 pieces of seedbead on each of the wire..

Step 5: Add 2 more 2mm silver beads to each of the wires and then put the wires back together and thread through a rondel, a Swarovski Bicone, another rondel and repeat once more.

Step 6, After this you will keep the two wires together repeating 10 seedbead, followed by the Swarovski and rondelles

Step 7, To finish cut the chain into a 2 inch length and wrap the ends of your wire through

First through the crimp bead, Then through the last loop on the chain and around it back through your crimp bead. Using your crimper, close down tightly on the crimp and cut with your side cutters very close to the crimp.

Step 8 Take the headpin and your last Swarovski bicone and wire wrap it to the dangling end of the extension chain.

Step 9, Repeat Steps 2 through 7 for the other side of the necklace and finish off the necklace with your trigger clasp.

Color Variations: We have 4 other colors of the zanfirico twisted tube and matching beads. Give it a try!.
