TOSCA-RN-12-G9	1	Murano Glass Bead, Ruby Red Tosca 24kt Gold Foil Round 12mm

Instructions:

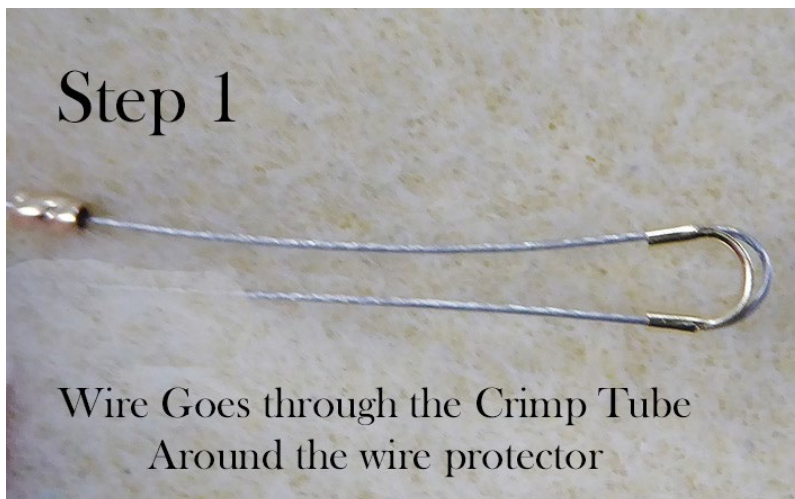

1. It is not important the sequence of the colors of the Tosca Rounds, just start with the Faceted Crystal Round and end with the same. Between each bead add the Gold Plated Rondel with Multi Colored Crystals.

2. When you have put on the faceted crystal, add the Crimp Bead to the wire, then run the wire through the wire protector.
3. In the center of the wire protector (the center of the horseshoe) insert one end of the toggle clasp, either the ring or the bar. It is not important.
4. Run the wire back through the Crimp Tube. Be sure to push the tube flush with the wire protector and pull the excess wire back through the first bead. (I do this to give myself a little safety)
5. On the other end, do the same thing and secure the crimp tube. (See Below)
6. Place the crimp bead over the tube, this give the bracelet a finished look.

See Images Below for attaching the wire protector and crimp tube.

1ST Slide the Crimp Tube onto the wire
Then feed the wire through the wire protector as shown

2nd Slide the Ring or the Ring of the Clasp into the center

3rd Feed the wire back through the crimp tube. Pull the wire snugly before crimping the tube.

4th Do the same for the other end of your jewelry.
