

Hearts and Pearls Bracelet

Design by VenetianBeadShop

This is a great Wedding bracelet with our use of our Tosca Line of authentic Murano Glass which features a transparent bright green with patches of gold foil. This makes a ~7 1/2 Inch Bracelet.

Tools:

Side Cutter, & Chain Nose Pliers

Supplies:

Wire for Stringing: We used Beadalon 49 Strand Gold Plated Wire .015. You can use wire you already have.

Tip: Because I do not like to waste wire, I string right on the spool. Then finish off one end which saves a couple of inches. To lengthen add beads repeating the pattern.

Components:

Part SKU	Quantity	Item Name
5810-PRL-6MM-1	8	Swarovski 5810 Crystal Pearl 6mm, White, Per Bead
BA-JW10GP-10FT	1	Beadalon 49 Strand Gold Plated Wire .015, 10ft
F-GF-CRIMPTW-019	2	14/20 Gold Filled Twisted Crimp, .019 Wire, 2x3mm Per Piece
F-GF-WIREPROT031	2	Gold Fill Wire Protector .031" ID, Per Piece
F-PW-BDCP-4SCAL-AG	22	Antique Gold 4mm Scalloped Pewter Beadcap - Per Piece
F-PW-SPC-5BEAD-AG	9	Antique Gold Plated 5mm Beaded Spacers, Plated, Per Piece
F-PW-TOG-FIO12-AG	1	22kt Gold Plated Flower Motif Toggle, 12mm, Antique Finish
TOSCA-H-13-G3	6	Peridot Gold Foil Heart Tosca 13mm, Murano Glass Bead

Instructions:

Step 1. Use the picture to string the beads in the order. If you string on the spool, you'll need to go from one end to the other. If you cut the wire, you can string from the middle to the ends. We use the 4mm Scalloped bead inverted at the top of the hearts, it fits nicely in the heart.

Step 2. Finish the bracelet by running the wire 1st through the crimp tube and then around the horseshoe of the wire protector. Stop and insert one end of the clasp, then run the wire back through the crimp tube. I like to take it through at least the 1st bead. Pull tightly and crimp the tube. Because we used the twisted, it's really simple.

Step 3. Do the same for the other end of the bracelet.
