| BA-180A-020        | 1        | Beadalon German Style Wire, Round, Gold, 20 Gauge, 6m     |
| BAROCCO-OV-32-XG22 | 1        | Murano Glass Bead Barocco Oval 32mm Exterior Gold Coral   |
| BAROCCO-R16-XG22   | 2        | Murano Glass Bead Baroque Round 16mm Exterior Gold, Coral |
| F-BM-CHANG-3135    | 2        | Antique Gold Round Cable Chain, 8.5x8.5mm, Per Foot       |
| F-GF-HP0124        | 1        | 1 Inch Gold Filled Headpin, 24 Gauge                      |
| F-GF-JRO25-4       | 2        | 14/20 Gold Filled Open Jump Ring, 4mm, 22ga               |
| F-PW-CLTG-BAR-AG   | 1        | 12mm 22kt Gold Plate Pewter Bar and Ring Toggle           |
| OVAL-16X8-G1       | 2        | Clear 24kt Gold Foil Ovals 16x8mm Murano Glass Beads      |
| RN-14-G1           | 2        | Clear 14mm Gold Foil Round Venetian Glass Bead            |

**Instructions:**

**Step 1** Cut two lengths of the chain, each 6 inches long. Set aside 1 link which will be used with the focal bead.

**Step 2** Double the chain and with the loose end, insert into one jump ring and then insert one end of the toggle clasp into the jump ring as well and close securely. Do the same for the other piece of chain.

**Step 3.** Cut the Beadalon Gold 20 gauge wire, 1 piece approximately 3.5 Inches long. Insert through your focal bead. Make a wire wrap on the bottom. On the other end wire wrap the link which you saved from Step 1 onto the focal bead.

**Step 4.** Wire wrap the 4mm Light Silk crystal with the 1 inch headpin to the bottom loop on the focal bead you made in Step 3.

## Venetian Bead Shop Baroque Necklace Coral Exterior Gold Foil

**Step 5.** Cut the wire for the Swarovski Bicone 1 inch lengths, you will need 8 pieces. For the round beads, cut 1 ½ inches 4 pieces and for the ovals 1 ¾ Inches.

**Step 6.** Wire wrap the one bicone onto the ring of the focal bead, followed by the 14mm gold foil round, another bicone, the 16mm barocco bead, another bicone, the oval and a bicone. On the end of this bicone, wire wrap the bicone onto the center two rings of the doubled chain. See the closeup picture below.

**Step7.** Do the same for the other side.

If you do not want to wire wrap, you can use a simple loop, but be sure to close them well so they do not snag and that the necklace will not fall apart.

### Longer or Shorter?

If you need it shorter the easiest thing to do is to lengthen or shorten the chain.

Make matching earrings by using the same bicones to match.
