## Fancy Cobalt Gold Twists Earrings

Design by Amy Kapphan,

These earrings feature our authentic Murano Glass 24kt Gold Foil Beads in the Ca'd'oro (cracked gold foil) in a sophisticated twist.

These earrings are long and elegant using this larger 30mm bead. Additional length and sparkle come from Swarovski Crystals in a dangle.

The design is by Amy Kapphan exclusively for VenetianBeadShop.

### Tools:

Side Cutter, & Chain Nose Pliers and Wire Wrapping Pliers

### Components:

Part SKU	Quantity	Item Name

TWIST-FNCY-30-CDG11	2	Cobalt Ca'd'oro 24kt Gold Foil Fancy Twist Beads 30mm Murano Glass Bead

\*You may use any 24gauge wire instead of headpin

### Instructions:

**Step 1.** Begin by making all of your dangles with the Swarovski Crystals. Wire wrap these (there are a total of 7 for each earring. When you slip them into the jump ring, the largest crystal should be in the middle (if the jumpring were laying flat) followed by 2 of the 4mm crystals and 1 of the 3mm so that they appear symmetrical.

**Step 2.** For the large bead, use any 24 gauge wire or in our directions, clip the head off a 3 inch headpin and create a wire loop on one end (this will become the top of your earring). Then on the other end, create another wire loop.

**Step 3.** Take your assembled jump ring with the 7 Swarovski Crystals and insert it in the bottom ring of the large bead assembly. Close the jumpring by twisting back and forth being sure the ends are tightly together. Note: The twisting will harden the jumpring.

**Step 4.** Open the loop on the ear wire and insert the completed twist component.

**Step 5.** Repeat the Steps above for the second earring.

**Hint:** You can use eye pins if you have the in your beading box. You can make this not only with diamonds, but our coins will also make beautiful earrings and in all the bright colors of our 24kt Gold Foil..
